Rocky Flats Plant Proposes New Sanitary Landfill

GOLDEN--An application from the U.S. Department of Energy to open a new sanitary landfill at the Rocky Flats Plant for the disposal of solid waste is being reviewed by the Colorado Department of Health (CDH) and is available for public comment.

The plant is in northern Jefferson County. The proposed facility will be located within the buffer zone in the northwest quarter of Section 10, Township 2 South, Range 70 West.

CDH is reviewing the application for technical accuracy, for compliance with the state's solid waste regulations, and to assure the landfill will not negatively impact human health and the environment.

Interested citizens may review the application during regular business hours through July 30 at the Jefferson County Planning Department, 700 Jefferson County Parkway, Suite 220, Golden, or at CDH, 4210 E. 11th Ave., Room 351, Denver, 80220. The public may send written comments to Poul E. Poulsen at CDH by July 30. All comments will be considered in the application review process. For further information phone Poulsen at 331-4806.
